**Subject:** Draft - Site 5 Engineering Evaluation and Cost Analysis - acceptance

Agnes,

Thank you for the opportunity to review the Site 5 Engineering Evaluation and Cost Analysis (EECA). EPA agrees with the EECA's recommendation of the Preferred Alternative, Alternative 5. As discussed during our May Partnering Meeting EPA would like the opportunity to review Technical Memorandum for the development of the Site Remediation Goals (SRGs).

If you have questions regarding the review of this document please contact me.

Regards,

Todd Richardson
